

OmniStream - Receiver Instructions

1. Sharing the Application

- Do NOT send OmniStream.app uncompressed via messaging or email.
- Always send OmniStream.zip (the compressed file).

2. Instructions for the Recipient (First Time Setup)

Step 1: Unzip OmniStream.zip by double-clicking it.

Step 2: Bypass macOS Gatekeeper (Important!)

- Right-click (or Control + Click) on the OmniStream app icon.
- Click Open from the menu.
- A security prompt will appear asking to confirm. Click Open.
- Note: You only need to right-click open once! Afterwards double-click normally.

3. How to Use

- Double-click OmniStream to start.
- Your web browser will open automatically at <http://localhost:8888>
- Paste any video link (YouTube, Vimeo, Twitter, etc.) and click Download.
- Videos are saved to Downloads/OmniStream on your Mac.
